

ARTIST BIOGRAPHY

DJ Flurane is a highly talented and accomplished Club DJ, music producer, and former music journalist hailing from Jacksonville, Florida. With a passion for techno and electronic dance music, he has built a reputation for himself as an expert in his field and has interviewed some of the most influential names in music, hip-hop, and EDM, including Sir Mix-a-lot, Run DMC, Spacegirl, Cirrus, DJ Qbert, Snoop Dogg, Deville, and many more.

As a DJ and producer, DJ Flurane's mixes are nothing short of extraordinary. His unparalleled ability to blend different genres and create an energetic and eclectic sound that connects with listeners' emotions is what sets him apart from the rest. His sets are full of energy, and he has an innate ability to read the crowd and keep them on their feet all night long.

Over the years, DJ Flurane has built a massive following, and his fans eagerly anticipate his next performance or release. He is widely recognized as one of the best DJs in Florida, and his contribution to the electronic music scene is undeniable.

Today, DJ Flurane is also a father, physician, Club DJ, and music producer. He's been involved in the techno and electronic dance music scene since the late 90's. Over the years he started as an avid follower, then grew into a promoter, and later a freelance journalist following festivals and stars up and down the eastern seaboard; together with several close friends he started a website and "E-zine" in the early 2000's and during that time, he had the opportunity to interview some of the biggest names in music, hip-hop and EDM including Sir Mix-a-lot, Run DMC, Spacegirl, Cirrus, DJ Qbert, Snoop Dog, Deville, and many others.

He began dabbling in mixing/DJ'ing at that time as well, getting started on a used pair of Technic 2000's before hanging up his hat and deciding to focus on his studies and training for medical school. His love and passion for Techno/EDM and all things musical has never waned. As a child of the 80's his taste in music is broad, ranging from 70's/80's pop, to Alternative, Hip-Hop, Reggae, Latino, Asian, Drum n' Bass, Jazz, Trance, and even some Country!

His mixes reflect his ADHD nature and eclectic musical tastes and now that his medical training is complete, he has finally had the time to once again share his love and passion for music with others. Being a DJ/Producer is about much more than simply mixing tunes. It's about mixing and controlling emotions and energy, controlling the flow for an entire room. There is no feeling in the world like watching a crowd of a few thousand people respond to the energy you put out through a simple vinyl disk and set of speakers!!!

DJ Flurane hopes you will join him on this journey and enjoy the music he puts out there. He welcomes positive vibes, honest requests, and constructive criticism. As he says: "This is a labor of love, not my primary profession. I strive to improve every day, try new things, and push the boundaries of what's been done before and defy what others say can't be done."

If you like what DJ Flurane is putting out there, please consider liking or subscribing to his SoundCloud and Mixcloud channels and support both his efforts and the efforts of those talented artists whose music he mixes.
